

Good judgment, management and control of the effects or impacts generated from human activities on the environment is of immense importance to Halcyon and Liber Limited as it embraces the surroundings (land and soils), water and atmosphere, human, marine and wild lives all inclusive.

Our site activities shall be well guided with strict commitment to environmental protection in order to:

- ◆ Achieve harmony with the local community
- ◆ Refrain from avoidable compensation
- ◆ Work disruptions and stoppages from host community or clients
- ◆ Minimize the potential of waste to cause harm to health.

Signed for and on behalf of the Management.
